

Doodle for
Google

Every year, Google hosts a student competition called **Doodle for Google**. In this competition, Google provides a theme for students to draw out (literally) their ideas and have them come to life.

This nation-wide competition allows students of all ages to showcase their work on Google and get the chance to win money to continue their education.

53 students will be named winners from their state, 5 finalists will be flown to Google's Mountain View headquarters and 4 of them will receive a \$5,000 college scholarship.

The remaining finalist will be the grand winner and will receive

- \$30,000 college scholarship
- \$50,000 Google for Education technology package for their school
- Original Google Doodle design displayed on the Google homepage for a day

The 2020 Doodle for Google theme is:

KINDNESS...

This year's theme invites you to show us how you can share kindness. Helping the elderly cross the street? Volunteering at an animal shelter? Helping the poor? Saying something positive to everyone you see in a day? Take your ideas and put them into your Doodle!

BE CREATIVE & HAVE FUN!!!
