Name:_____

Requirement	Description	Points Possible	Points Earned	Comment
Document Setup & background	- The PS or PIXLR document is set up as either LANDSCAPE or PORTRAIT style and has a background image COPIED and PASTED from GOOGLE to fit the entire document appropriately (no document page is left blank or unused) - The background image is crisp and clear - not distorted or blurred in any way. - There are NO watermarks or logos visible on the document	**20**		
Images	- 5 or more images were copied from Google and pasted onto the PS or PIXLR document. - Each image is clean and crisp - not blurred or distorted. - Each image is sized appropriately and arranged to fit the document in a unified manner. - ALL images show visuals that represent the chosen topic (consistent theme or idea being represented) - ALL images use NO to VERY LITTLE TEXT to help support the topic.	**25**		
Background Removal & Juxtaposition	- All images have the background removed using any of the LASSO TOOLS or WAND SELECT TOOL. - None of the images have ghost lines or parts of the original background attached to the main image.	**25**		

	- It shows clear evidence the student knows and understands how to use the tools correctly. - All of the images are JUXTAPOSED or arranged in a way where they look unified and belong together			
Composition & Effort	- The overall composition of the poster is unified and consistent. - Every part of the composition or document is utilized (not a lot of blank areas) - The composition is strong, well balanced, uses different sized images to show emphasis and keep the viewer's eyes moving. - The poster helps support the chosen cause or topic - appropriate and successful artistic choices were made. - The poster shows evidence of the student's efforts and decision making while making this poster. - The poster was saved correctly, uploaded to the student's portfolio on time and has a brief description explaining what is happening in the poster.	30
